

TelNet UC-One

Mobile Client Setup | Apple iPhone

- 1) Install UC-One client application from Apple App Store (search for UC-One 2015)

- 2) Start UC-One application

- 3) Enter Login URL/device configuration address: <https://uc.telnetww.com> and tap **OK**

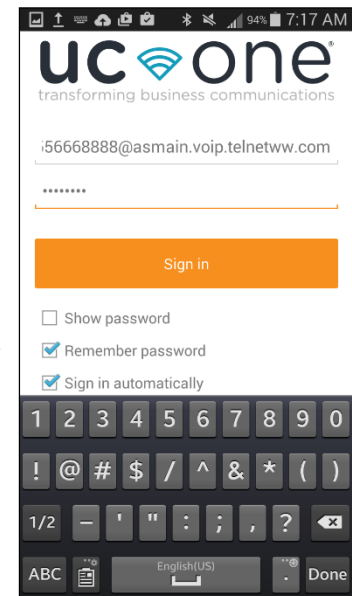

- 4) Enter login credentials (provided by TelNet project manager)

- **Username:** This is [your 10-digit phone number@asmain.voip.telnetww.com](#) (e.g., [5556668888@asmain.voip.telnetww.com](#))
- **Password:** Enter your user web password

- 5) Enable the **Remember password** option

- 6) Enable the **Sign in automatically** option

- 7) Tap **Sign in**

Congratulations!

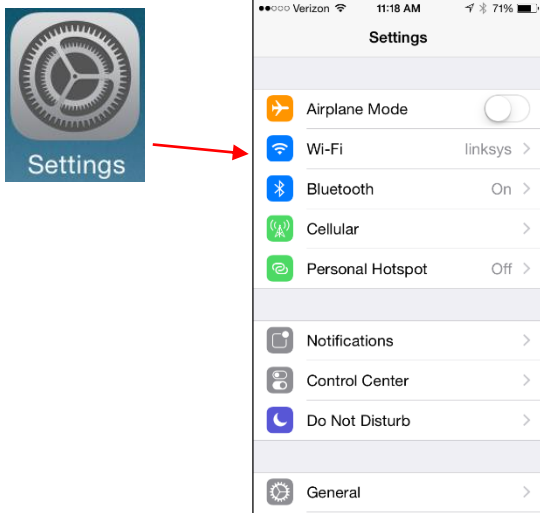

Your UC-One Mobile Client app is ready for use!

TelNet UC-One

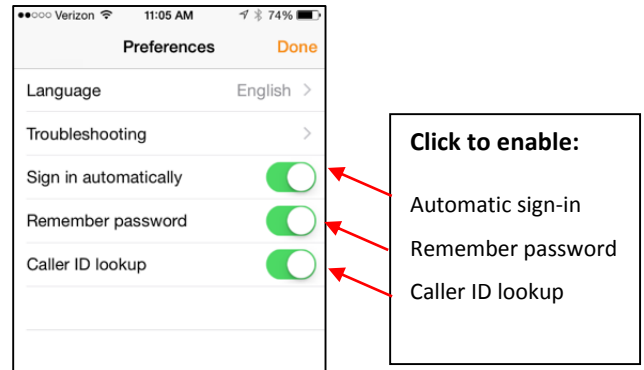

Mobile Client Setup | Apple iPhone

Recommended User Settings

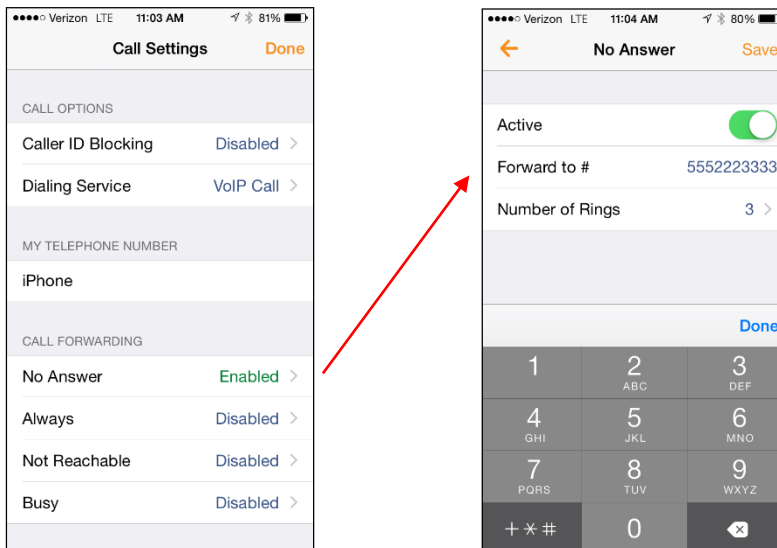

Connect phone to **Wi-Fi when available** (contact your network administrator if you need assistance). Wi-Fi is noted in **Settings**:

In **UC-One preferences**, set the following:

With UC-One **Call Forwarding No Answer**, set **Forward to #** to your cell phone number:

IMPORTANT NOTE:

Features may vary by device, settings and quality of signal. When Wi-Fi is not available or cellular usage is selected, standard phone plan data and voice usage charges apply. Mobile client calls may drop or lose quality when Wi-Fi or cellular signals are lost or weak.

As a reminder, like any application, UC-One will draw energy when open, and using Wi-Fi will consume battery.
