

# Voice Services Quick Reference Guide

## Calling Features • VoiceMail

### Dialing

#### To dial

- **Local call** – dial the 7-digit local number
- **Long distance** – dial the 10-digit phone number (area code + local number)
- **International** – dial 011 + country code + city code + number
- **Internal extension** – dial the 4-digit extension

### Flash Call Features

*NOTE: Flash calls are available on devices with flash functionality.*

#### Call Transfer \*\*

While on call to be transferred:

1. Press flash-hook on phone. The initial call is held.
2. Enter the complete phone number or extension of the party to receive call. You can press # to signal the end of the phone number or extension.
3. The third party phone will begin to ring – hang up handset to drop out of the call and connect the other two parties.

#### Three-Way Call \*\*

Allows you to talk to multiple parties simultaneously. While on one call:

1. Press flash-hook on phone. The initial call is held.
2. Enter the complete phone number or extension of third party. You can press # to signal the end of the phone number or extension.
3. When the call is connected, press flash-hook again. All parties are connected in a three-way call.
4. To drop the add-on party, press the flash-hook again.  
*NOTE: If either of the two other parties hangs up, your call with the remaining party is intact. If you hang up, the other two parties remain connected.*

#### Call Hold

To place a call on hold, while on one call:

1. Press flash-hook on phone to put an active call on hold.
2. You can place a second call and toggle between calls.

*Note: While on-hook, a new incoming call has priority over the call on hold and rings through first. If you answer the phone, you get the new call first.*

### Quick Dial Calling Features

#### Call Forwarding

Forward all incoming calls to another number or voice mail, forward calls only when your line is busy, or when calls go unanswered.
