MAKE CALLS FROM TEAMS

Teams Phone Application

Simplify your business communications with the Teams Phone App. This powerful, native application comes with an integrated dialpad, active call management and company-wide contact lists, so you can dial within Teams **without additional licensing requirements**. Supercharge your PBX by adding remote capabilities through the Phone App.

Native

Every click, action and call takes place within Teams so you don't have to worry about installing additional software.

Intuitive

A refreshed interface and improved user experience empowers users to do what they need to do quickly and efficiently.

Powerful

All the functionality you expect from a business phone system, including filtering call history, dialing from contacts and transferring calls to the PSTN.

Cost Effective

Communicating shouldn't cost an arm and a leg. You'll see approximately 80% cost savings compared to a Microsoft Phone System license.

Call from Anywhere

Enable Teams Calling

The Teams Phone App cost allows organizations of any size to use their Teams platform as a business phone system.

Integrated Dialpad

The intuitive softphone experience you want, all from within Teams. View numbers, click to call and connect to your corporate directory.

Call Management

Manage active calls by transferring between Teams users or transferring outbound to your PBX or PSTN.

Call History

Filter, search and dial from your call history log. Up to 100 calls can be stored for up to 14 days.

Quick Enablement

With effortless installation, a self-service portal and a simple licensing agreement, the Teams Phone App instantly complements your current PBX license.

Get to Know TelNet Worldwide

Too many businesses struggle with communication technology that's ineffective and frustrating. **We're changing that.** Our empowering, cloud-based solutions simplify the way you communicate and collaborate.
